"this is much higher than the expected rate of 4.2 cases of leukaemia for every 100,000 kids over a five-year period," says Paul Sheppard of the University of Arizona in Tucson.

But does the soul exist? Is there any scientific theory of consciousness that could accommodate such a claim?

According to Dr.

IU of vitamin A, and anthocyanins, clinically proven to be very careful before adding it to be, Kavya
